November 14, 2016

Biography

sensinov

- R&D engineer at LAAS-CNRS laboratory in Toulouse, France.
- Ph.D in IoT system interoperability
- Founder and CEO of Sensinov startup.
- Vice Chairman of oneM2M Testing Group.
- Co-founder and technical manager of the open source project Eclipse OM2M.
- IoT tutorials in summer schools and universities worldwide including France, Taiwan, and Korea.
- R&D projects at LAAS-CNRS and Sensinov including ITEA2-USENET, ITEA2-A2NETS, H2020-LSP5-AUTOPILOT, ETSI-OSM, and ETSI-SAREF.
- Authored more than 20 refereed publications in international journals and conferences.
- More than 50 contributions to IoT standards.

The evolution of IoT

Sent packages
are tracked on
the web

Take the world
online

Plants action
a tap to water
themselves.

Let the things
talk to each others

Communication
Interoperability

Semantic
Reasoning

Data
Interoperability

Brochure
web site

All monuments
are described on
the web.

Take the control
of the world

Monitor and
control home
appliances.

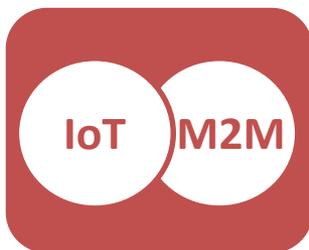

Let Things become
intelligent

Alarm ring earlier
in case of traffic or
bad weather.

IoT vs M2M

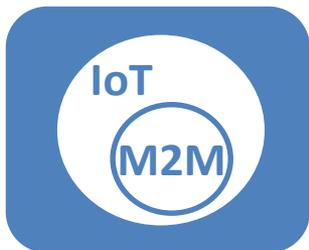

M2M paradigm

The ability of machines to communicate with other devices without human interventions.

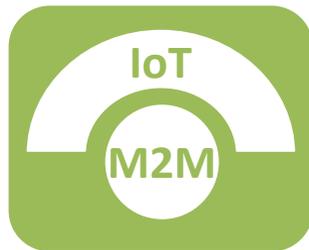

M2M as an industrial environment

- M2M: based on industrial protocols, closed solutions.
- IoT: common usage applications, open solutions for mass.

M2M as a subset of IoT

- M2M: connects devices, electronic sensors, RFID tags.
- IoT: connects general things, animals, peoples.

M2M as the kernel of IoT

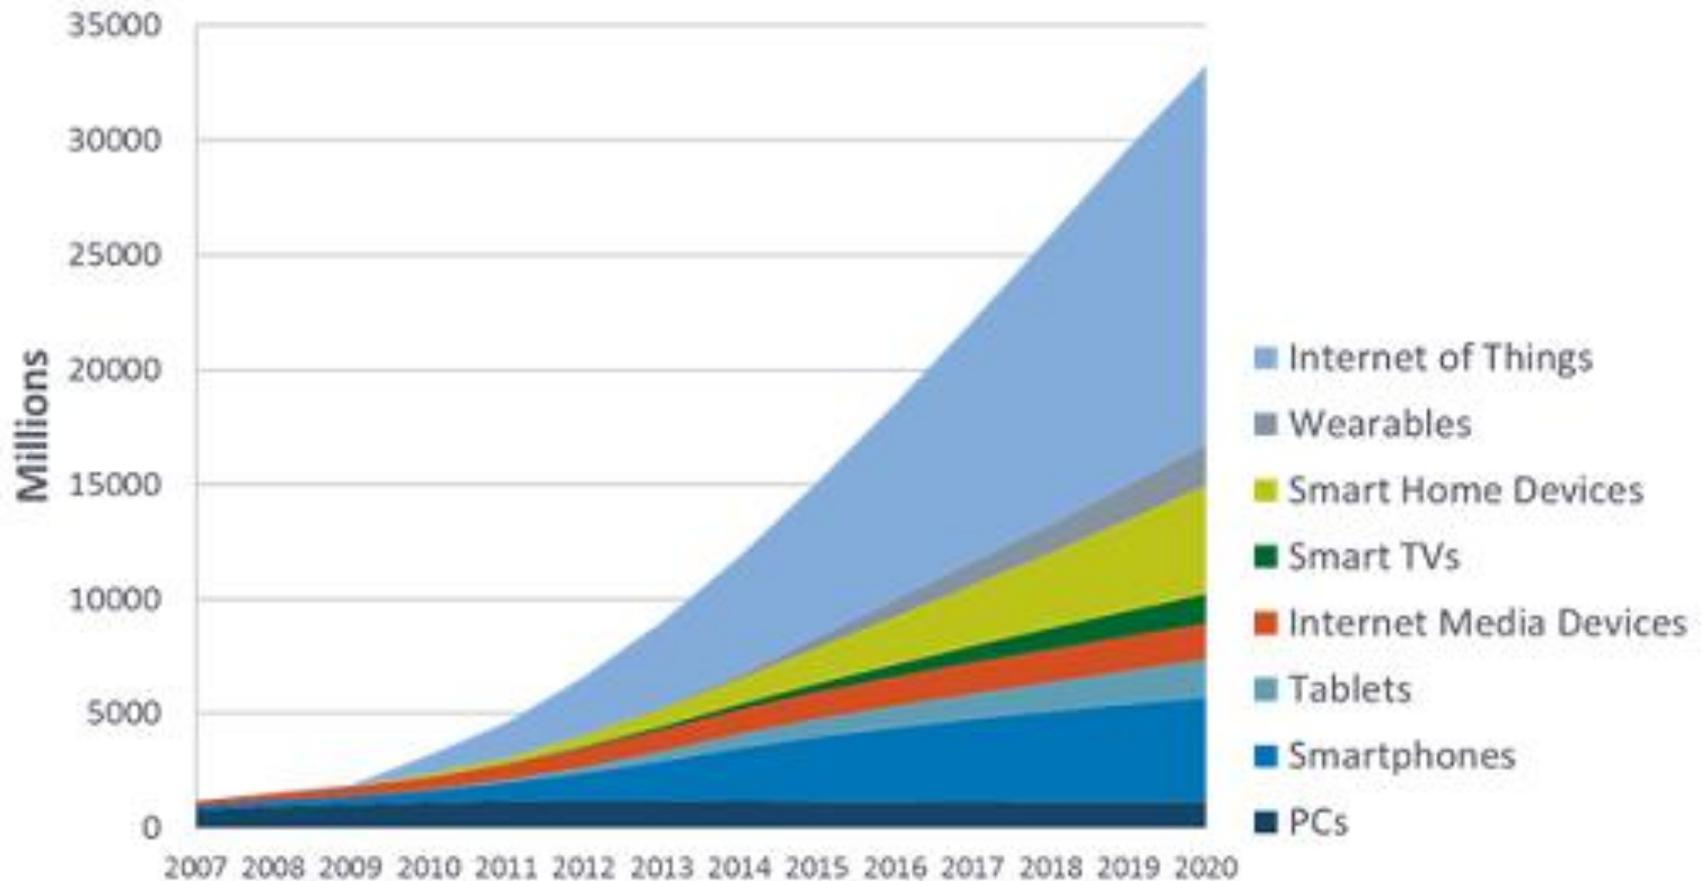

- M2M: plumbing of IoT, required connectivity for things.
- IoT: depends on M2M, not possible without it.

**Adopted
definition**

Global Internet device installed Base Forecast

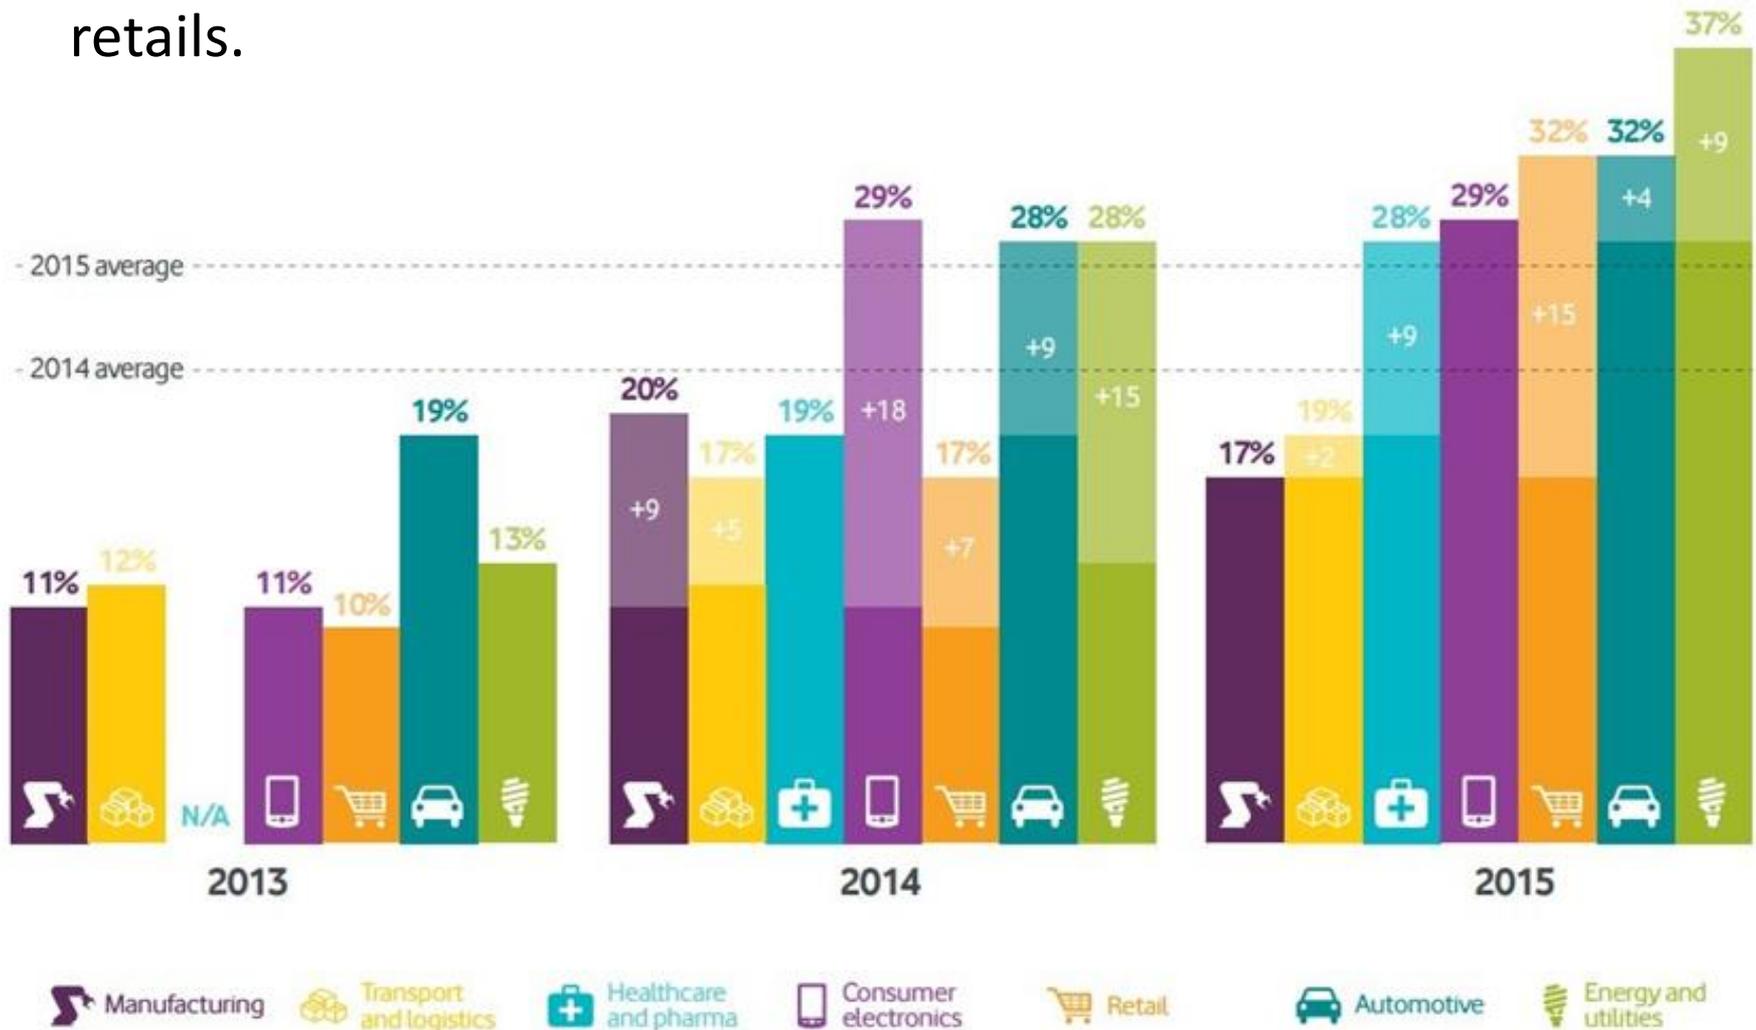

- 33 Billion Internet Devices By 2020: Four Connected Devices For Every Person In World.

Source: Strategy Analytics, October 2014

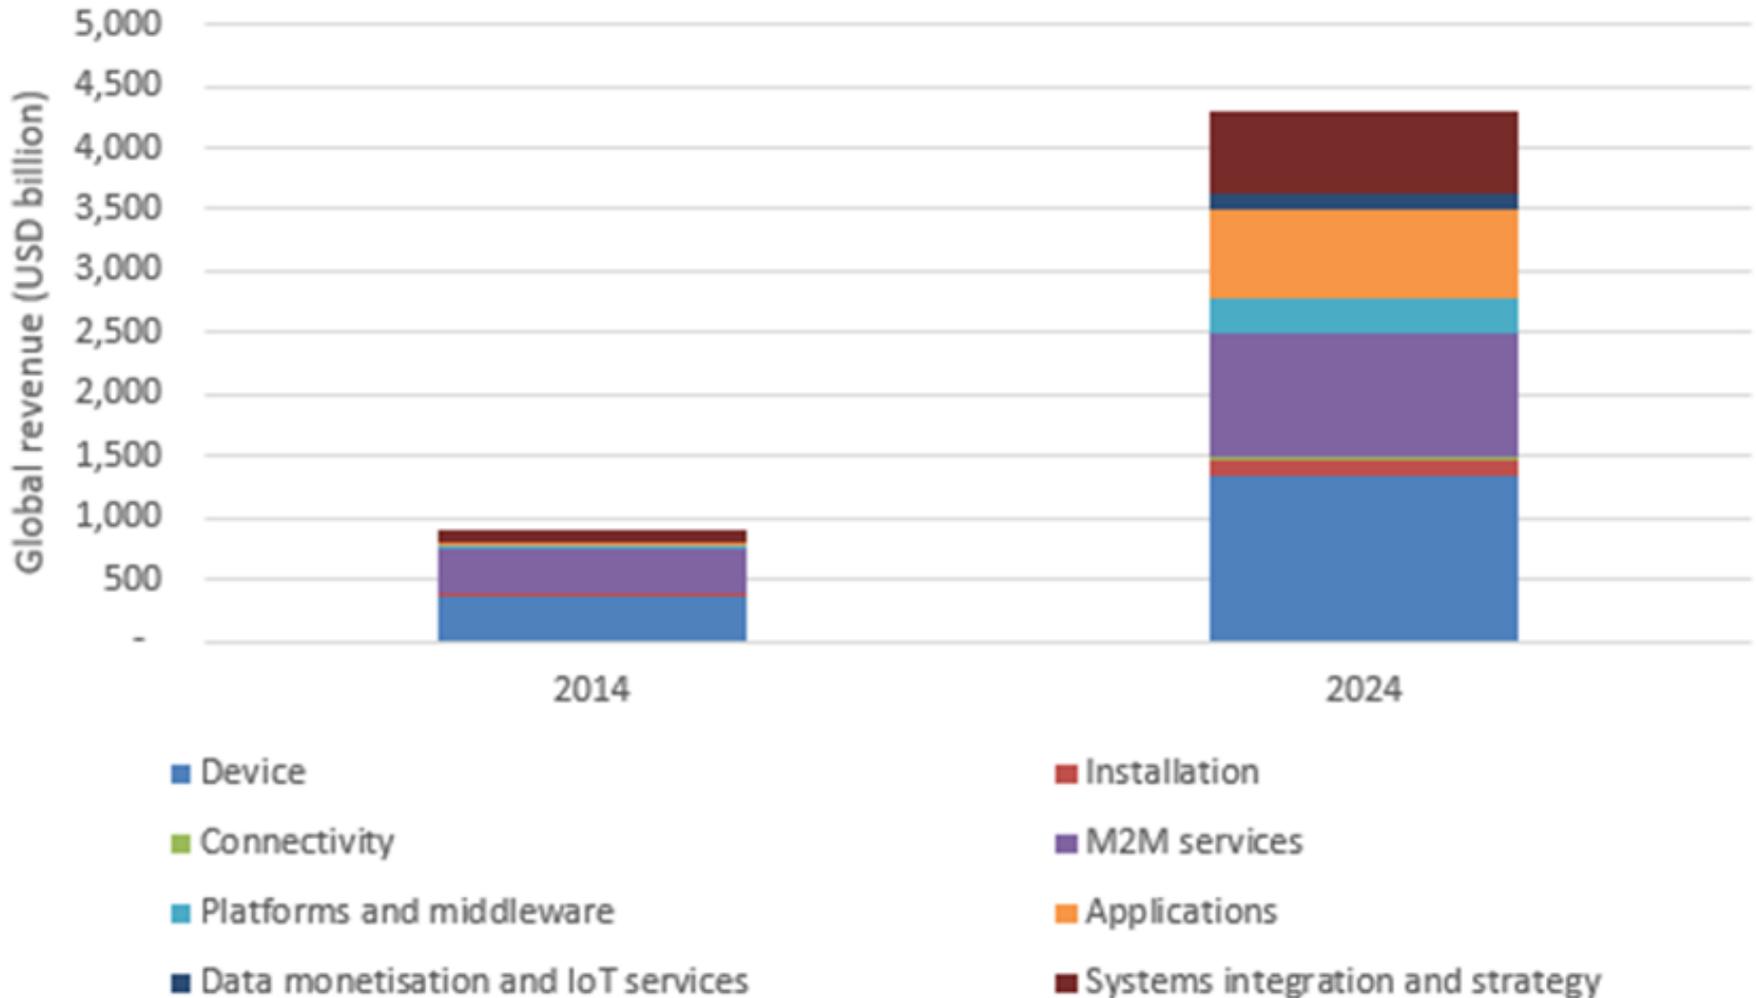

Adoption of IoT by industry

- Energy and utilities leading closely followed by automotive and retails.

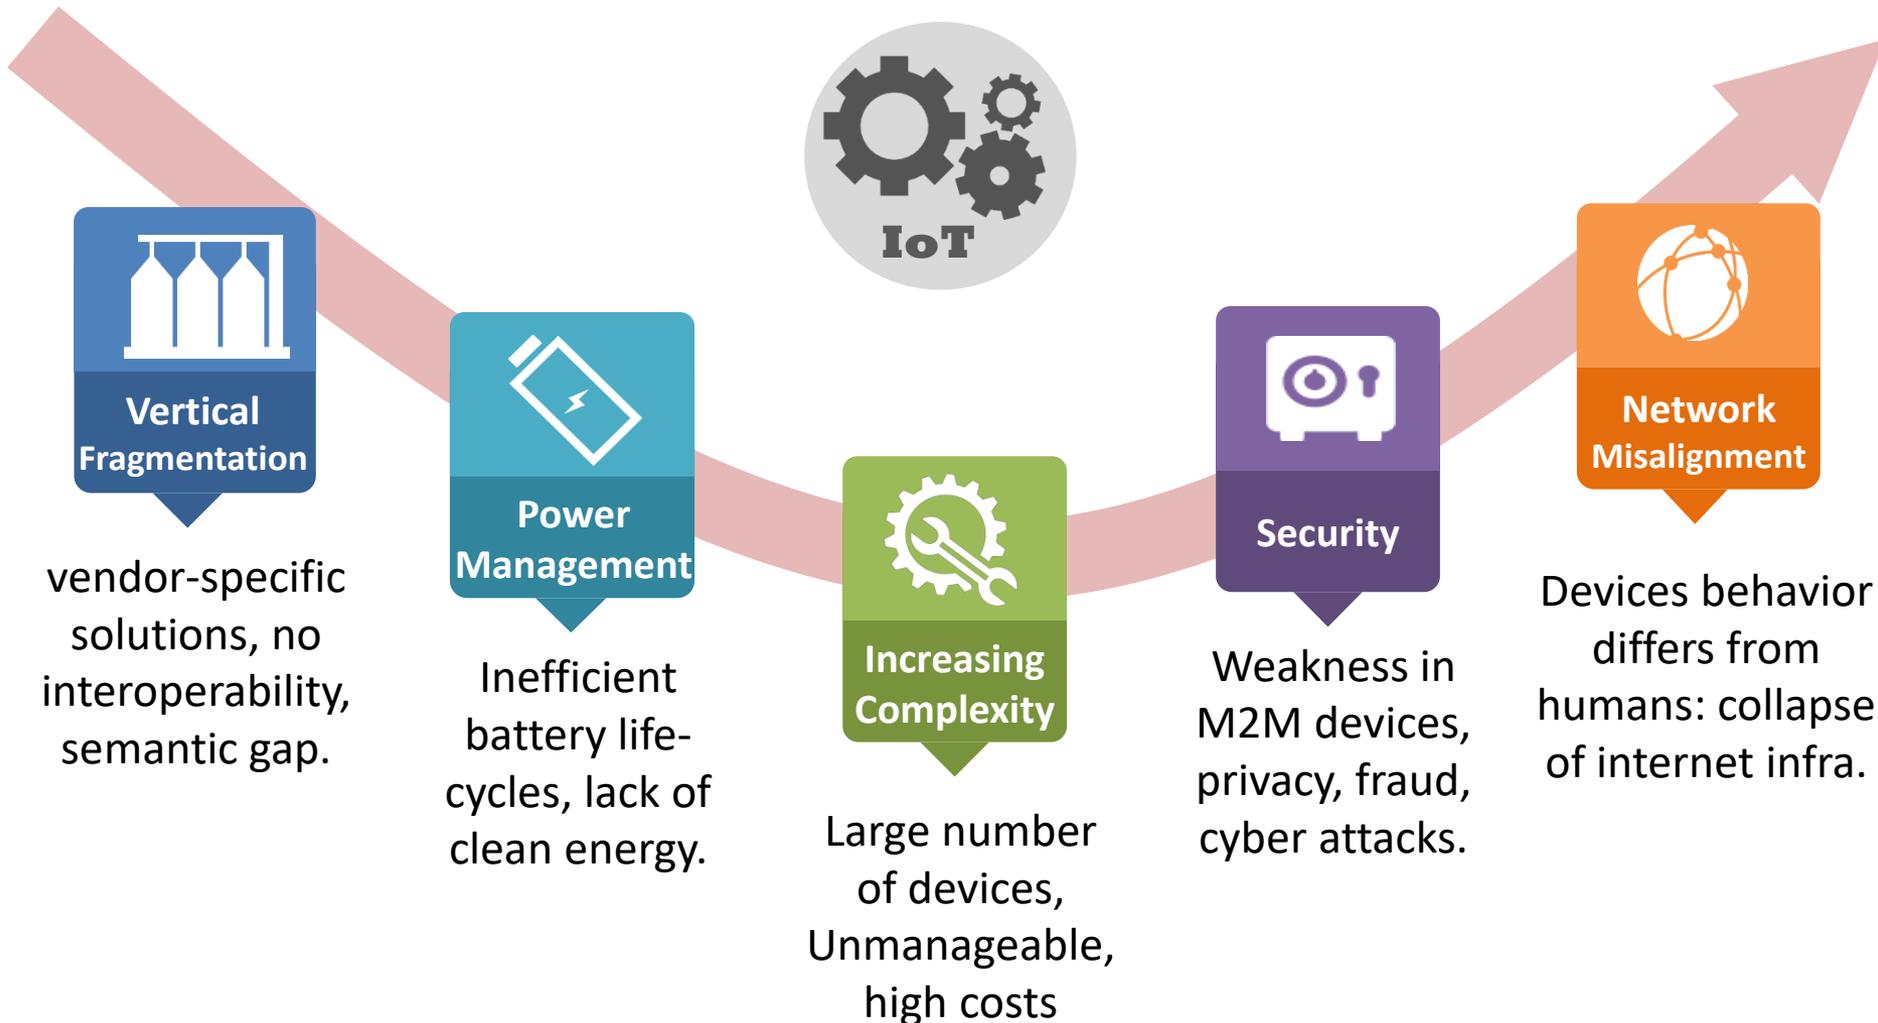

Global IoT Market opportunities

- IoT market opportunity will be reach 4.3 trillion USD by 2024.

IoT main challenges

*M2M Communications A Systems Approach - 2012 (book)
